Prepare for your Future:
At the University of Redlands our graduate program is one of the leading professional training programs in the country. We provide a caring and personal atmosphere where students and faculty work together. At the end of our two year program you will earn the California State license, California Speech Language Pathologist Services Credential (SLPS), and ASHA certification.

Learn with the Best:
Our faculty members greet new students with gracious warmth that is perhaps indicative of their chosen profession, training students to become dedicated professionals in a field that helps those with disorders live in a world heavily reliant on quick and clear communication. They are equally dedicated to preserving the success of this nationally recognized graduate program.

Enjoy the Experience:
It is easy to feel at home at the University of Redlands, Truesdail Center for Communicative Disorders. Not only will you collaborate with faculty but also with your student peers, creating relationships that will last a lifetime. Here at the University of Redlands we have a strong alumni connection. What better place than Redlands to study, where you can draw from a diverse southern California population and students from around the world. There is an undeniable energy with clients coming and going and students bouncing between our in-house clinic and the classroom. The environment is warm, friendly...comfortable.

Career Outlook:
Speech-language pathology is expected to grow faster than average through the year 2018.

Prepare now for a rewarding career as a speech-language pathologist.

According to the Bureau of Labor Statistics, the Median annual wage of a speech-language pathologist was $62,930 in May 2008. The middle 50% earned between $50,330 and $79,620. The lowest 10 percent earned less than $41,240, and the highest 10% earned more than $99,220. Median annual earnings in the industries employing the largest numbers of speech-language pathologists were:

- Nursing care facilities: $79,120
- Home health care services: $77,030
- General medical and surgical hospitals: $68,430
- Offices of other health practitioners: $67,910
- Schools: $58,140
