

# May Term Travel 2023

HMS 150 Health and Medicine in  
Southern Africa  
Prof. James Krueger

**Enrollment Limit = 10**

**Course Fee = \$3000.00**

Course fee will cover all meals, ground transportation, project supplies, lodging, and activity costs during the trip. This does not cover airfare or souvenirs.

**Estimated Expenses Beyond Course Fee: \$2000**

The major cost not covered by the course fee is airfare. The only other expenses not covered will be souvenirs and any personal international cell phone charges.

## **Course Description:**

This course explores health and medicine in Southern Africa with a special emphasis on Eswatini and the impacts of the ongoing HIV epidemic. It is a service course where the bulk of our time will be spent engaging in projects arranged in conjunction with the Ministry of Health in Eswatini. Past projects have included building community gardens, renovating portions of the government hospital in Mbabane, assisting with malaria control surveys, and working with Hospice at Home in and around Eswatini. In addition, we will spend roughly a week visiting sites in nearby Johannesburg, South Africa. Throughout the course, activities may include a safari; visit to the Cultural Village in Eswatini; tour of the Cradle of Humankind; and visits to the Apartheid Museum, Mandela House, and Hector Pieterse Museum. This course fulfills TG and CER LAIs.
