

ACCOUNTING BS, CAS

Learning Outcomes

1. Critically analyze current business practices in written assignments and classroom exercises based on an understanding of the foundations of capitalism and market economies.
2. Create effective business communication in both written and oral forms.
3. Assess and practice interpersonal communication skills to effectively collaborate with clients, community volunteers and university members in managerial settings.
4. Develop a capacity to meaningfully evaluate a company (or non-profit) performance with the application of appropriate financial and statistical techniques as well as accounting methods.
5. Evaluate classic and contemporary situations using discipline-specific tools - e.g. accounting, finance, law, and management - and the latest research findings to generate effective solutions, taking into account competing perspectives and the expected impact on stakeholders.
6. Identify and understand the challenges and opportunities of operating a business or non-governmental organization in domestic and international settings.
7. Conduct themselves in academic and group settings in ways that reflect sound ethics and responsible behavior.
