Student Involvement & Success

Previously Student Leadership & Involvement Center

The rebranding of SLIC (to SIS, Student Involvement and Success) reflects a division-wide effort to be more intentional and developmental in our work.

The SIS team is responsible for :

- supporting the needs and interests of the Associated Students of the University of Redlands (ASUR);
- guiding and supporting the educational and social programming sponsored by ASUR and other student organizations;
- coordinating oversight and assisting members of the Greek community through a more intentional and collaborative partnership;
- sponsoring student transition and support programs, to include new student orientation and transfer student programs;
- mentoring organizational leadership;
- cultivating an ethos of shared governance;
- creating opportunities for skill development (leadership, for example);
- establishing clear lines of collaboration with Greek alums, as well as faculty colleagues.
