ADDITIONAL INFORMATION

Culminating Fieldwork Experience

Upon successful completion of the required coursework and program requirements, students advance to student teaching. Students may complete an internship if they complete their bachelor's degree and continue as a credential student or Master of Arts in Teaching and Learning (MALT) student.

The regulations and requirements of our teacher education program are approved by the California Commission on Teacher Credentialing (CCTC). All teacher credentials candidates must demonstrate competency in their specific subject-matter area prior to student teaching/internship and the teaching seminar. [Learn more](#)

Application for Preliminary Credential

Students who have completed all program requirements should submit a credential application. Please see our [Pathway to Credentialing](#) webpage for additional information.

Master of Arts in Education, Learning and Teaching

Undergraduate students at the University of Redlands can complete up to 18 credit hours of degree work toward a teaching credential or Master of Arts in Education, Learning and Teaching as undergraduates. Students who wish to pursue a master's degree must apply to the School of Education. The culminating fieldwork experience, student teaching/internship, must be completed at the graduate level.

This pathway to a profession in education helps to create a professional path to being a teacher for those undergraduates who have identified education as their passion early in their college experience.
