 1200 E. Colton Avenue
 Redlands, CA 92373

Application Deadline: June 28 (postmarked)
No refund after July 1st

University of Redlands
Piano Camp 2019

Summary of Courses and Activities

A. BASICS All students participate in the following:

Piano Ensemble

Performance Forum

Music FUN-damentals

Creative Group Activities

B. APPLIED SKILLS (choose one):

No previous experience in these areas is necessary.

- **Adventures in Composition**
The Composition class will explore fascinating aspects of music creation. The course includes experimentation with diverse sound sources, working with modern as well as traditional methods of notation, and exploring principles of form, tension/resolution, character and mood.
- **Keyboard Improvisation**
This beginning class is a fun way for students to experiment with creating sounds on the keyboard in a variety of styles and rhythms. Part of improvisation will be learning specific patterns in the left hand that can be applied to favorite songs played by the right hand.
- **Organ for Pianists: "Keyboards Across the Ages"**
In this introduction to the organ, each student will have a hands-on opportunity to perform on the mighty four-manual Casavant organ in Memorial Chapel, the premier French organ in Southern California. Additionally, students will explore the similarities and differences among the piano, organ, clavichord and harpsichord.
- **Sight Reading for Fun**
The sight-reading class will help students improve their ability to play new music with ease the first time they see it. The focus is on quick recognition of notes, rhythms, and musical patterns.

C. MUSICAL EXPLORATIONS (choose one):

- **Music and ART: "Putting Sound on Paper"**
Students will uncover the common elements that shape music and art, in particular those of color, texture and form. Using a variety of raw materials, and inspired by musical examples, each student will have a chance to create their own artwork as a combination of sight and sound.
- **Music and DANCE: "Let the Beat Begin!"**
Why do we like to dance and move to the beat? Do you find yourself tapping your foot to your favorite song or wanting to swing and sway when you hear a snappy tune? Join this class for a fun and exhilarating 50 minutes each day, learning to coordinate physical movement with music of many styles and periods.
- **Music and DRAMA: "Lights! Music! Action! How to Make a Scene."**
Students will uncover the dramatic elements within a musical composition by studying a broad range of emotions and discovering the means by which composers convey their feelings. Class activities include listening as well as script writing, physical enactment and performance.
- **Music and MULTI-MEDIA: "Listening with our Eyes!"**
In addition to documenting the daily activities of Piano Camp, students will create a "Nature Symphony" on film, juxtaposing nature scenes they videotape on location around campus with the recorded piano performances of other campers. Students will learn the basics of videography, including how to handle a camera, sound recording, and editing.
