THE MAJORS

The Department offers a Bachelor of Science in Business Administration and a Bachelor of Arts in Management. Students may take department classes toward either major after completion of any prerequisite courses with a grade of 2.0 or higher. Students must have a cumulative GPA of 2.7 at the time they submit a Declaration of Major for the B.S. in Business Administration or the B.A. in Management.

Learning outcomes for the BS program may be found at www.redlands.edu/BS-BUS/learning-outcomes.

Learning outcomes for the BA program may be found at www.redlands.edu/BA-MNGT/learning-outcomes.

PREREQUISITE COURSE REQUIREMENTS

We encourage students to complete most of their prerequisite courses by the conclusion of their sophomore year. ECON 101 and BUS 136 should be taken first, followed by BUS 226 and ACCT 210. Students should avoid enrolling in BUS 226 and ACCT 210 during the same semester if at all possible. Transfer students with 30 or more credits will take BUS 226 in their first semester, unless exempted by their Business advisor. All prerequisite courses must be taken for a numerical grade and students must earn a minimum grade of 2.0 in each course.

To enroll in BUS 226 a student must have a cumulative GPA of 2.7 on a 4.0 scale at the time of registration. Transfer students must have a cumulative GPA of 2.7 from their previous school(s) at the time of registration. Students who do not meet the GPA requirements as noted above may petition the department for permission to enroll in BUS 226, or to declare the major. The Department Chair reviews these petitions in consultation with the BUS 226 instructors.

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

We encourage students interested in careers both in the United States and globally where financial, industry, marketing, or public sector analyses are important to pursue a BS in Business Administration. This program provides students with a comprehensive view of firms' inner workings, as well as the complex legal and strategic environments in which they function. Students enrich core study in accounting, finance, management, and marketing through the selection of electives in consultation with business faculty advisors.

The Bachelor of Science helps prepare students for decision-making and leadership roles in business, nonprofit organizations, and public service. Students with the Bachelor of Science degree pursue graduate study in business administration, education, finance, GIS and information systems, law, leadership, management, medicine, philosophy, psychology, among other areas.

BACHELOR OF ARTS IN MANAGEMENT

This program prepares students for careers as thoughtful decision makers and leaders in their personal and professional communities. It encourages innovative problem solving, collaboration, and strategic thinking. The BA in Management requires students to complete a second major, thus allowing students the opportunity to study broadly, develop different ways of thinking, enhance their critical analysis skills, and adapt to change in an interconnected international economy. The program is designed for students who will pursue globally in functions such as communications, development, human resources, marketing, public relations, and sports management, among others, and in sectors like entertainment, finance, government agencies, healthcare, information technology, logistics and transportation, nonprofits, and small businesses of all kinds. The program provides a pathway for students seeking a double major to graduate in four years.

INTERNSHIPS

The department encourages all business administration students to consider internships as opportunities to enhance their academic program. Internships allow students to explore career possibilities and integrate classroom learning with practical experience. Students should contact their faculty advisors for more information. To receive academic credit for any business internship, students must complete an organizational and industry audit as detailed in the department internship materials.

STUDY ABROAD

Study abroad enhances the undergraduate experience for business students. We encourage study abroad as well as advance planning for doing so. Early consultation with an advisor will allow for meaningful integration of one's international and university studies.

DEPARTMENTAL HONORS

Applications are accepted in the junior year from majors of high academic achievement who desire to work toward departmental honors. Successful applicants will work one-on-one with a member of the business faculty to complete a research project. In addition, their research project will be supported and reviewed by an advisory board of faculty and outside experts selected by the student and approved by the Honors advisor. To qualify for University honors, a student must complete an honors project within the department.

COURSE DESCRIPTIONS (BUS)

136 Principles of Global Marketing.

Fall (4), Spring (4).

Marketing concepts with emphasis on marketing management. Explores marketing strategies involving the variables of the marketing mix (product, pricing, promotion, and distribution), coordinated and integrated across multiple country markets. Examines the distinctive differences, influences, and issues faced by companies when conducting marketing activities in the domestic and global environment.

169 Special Topics in Business.

Fall (1–4).

Reflection of various issues and trends in business. Topics may vary from offering to offering. May be repeated for degree credit.

Credit/no credit only.

Numeric grade only.

302 Sustainable Labor.

Fall (4), Spring (4), May Term (3).

This course considers the future of business and employment by urging students to evaluate the ethical, political, and economic factors necessary to ensure “labor sustainability.” We assess changing labor markets in the United States, Canada, and Mexico, identified by economic sector, geographic location, and labor utilization.

Prerequisite: An economics course.

Numeric or Evaluation grade only.

304 Nonprofit Management.

Fall (4), Spring (4), May (3).

Nonprofit Management explores the practices of high impact social change organizations. Students examine operations and hear from speakers from across the nonprofit sectors. Regulatory and policy changes are examined as well as leadership, capacity building, advocacy, outcome measures, and fundraising strategy.

305 Organizational Communication.

Fall (4), Spring (4).

This course examines current methods and best practices for communicating in organizations. Topics include the communication process, business writing, presentation design and delivery, non-verbal communication, active listening, interpersonal skills, and employment communication. Special emphasis is placed on analyzing audiences, having clarity of purpose, and using proper format.

Offered as needed.

310 Principles of Management and Organization Behavior.

Fall (4), Spring (4).

Dynamics of individual and group behavior are explored, in addition to selected topics of entrepreneurship, technology, and strategic planning. Students are asked to view the internal workings of organizations as well as to consider organizations in a larger, more global context. Classic and modern texts are used.

Prerequisites: BUS 136, ACCT 210, and junior standing or by permission.

312 Leadership.

Fall (4), May Term (3).

Reflects the growing interest in leadership and the leadership process. Students explore the topic from multiple perspectives. Theory and myths are confronted as students search for their own path and assess their own unique styles. Students will also conduct original research, including posing and testing hypotheses.

Prerequisite: sophomore standing or higher.

Offered in alternate years.

333 Labor in the Global Economy.

Fall (2–4), Spring (2–4).

How can business enterprise support sustainable and fair employment in a world of competitive, globalized markets? This course reflects upon initiatives within the labor-capital nexus to promote growth and development within national and international market systems, taking into consideration the promotion of social goods as well as economic returns.
