The International Relations program emphasizes an interdisciplinary approach to understanding the complexity of factors that influence global interactions. It is increasingly difficult to understand local, regional, and national developments without a grasp of their global context. The program does not privilege a single approach, but rather is designed knowing that the interests of states, markets, transnational organizations, and cultural communities are inextricably linked, and thus must be systematically viewed together in order to address issues of security, diplomacy, sustainability, and development.

THE MAJOR

The International Relations major offers a conceptual vision and practical skills in written and spoken languages that will allow our graduates to find and create meaning in an interconnected world where people around the world are affected by a vast array of linkages that cross and perhaps reject geographic and political boundaries. Students take issue and theory-based foundation courses in global studies as well as economics, political science, cultural anthropology, and history; two courses emphasizing social science methodologies; and at least four electives in a concentration. Students are also required to acquire aptitude in a non-English language and are strongly encouraged and supported to engage in international/global internships, field experiences, or study abroad for one semester.

The major consists of a minimum of 48 credits selected in consultation with an advisor. A minimum of 28 credits for the major must be taken at the University of Redlands.

OUR CONCENTRATIONS

Global Political Economy and Economic Development (GPED).

This concentration focuses on the economics and political economy of international trade, finance, and development. It examines applied and theoretical aspects of past and current approaches towards international political economy, with particular emphasis on the role of global institutions (such as the World Bank, International Monetary Fund, and specialized agencies of the United Nations system), various regional arrangements, and non-governmental entities (such as NGO's and transnational corporations) in driving and managing the increasing economic interdependence among countries. In this concentration students may also explore the relationship between domestic and international political economic interests, doctrines and practices that have characterized the field of economic development, and current efforts to foster economic development around the world.

Global Environment, Health, and Natural Resources (GEHN).

This concentration focuses on the environmental, health, and resource issues that manifest within the global commons as well as in less-developed or emerging economy countries. It explores environmental issues, as well as environmental and resource economics, the economic and environmental impact of globalization, and the role of the World Bank, United Nations Development Program and United Nations Environment Program, and the social, economic, and political dimensions of health and health services.

Global Institutions and Society (GLIS).

This concentration focuses on global civil society issues, including questions of race, development and humanitarian aid, ethno-national conflict, gender, social movements, and democratization. It examines the power and influence of non-state actors including supranational organizations, non-governmental organizations, international law, international corporations, as well as sub-national socio-political groups and interests.

International Politics, Peace, and Security (IPPS).

This concentration focuses on the analysis of conflict within and across national borders and efforts by state actors to reduce threats and promote a peaceful and safe world. Courses may interrogate the political and security relationships among sovereign states, global and regional balances of power, "traditional" and "non-traditional" security threats such as terrorism, regional security issues, foreign policy and national security policy making, and international security and arms control.

Learning outcomes for the program may be found at www.redlands.edu/BA-IR/learning-outcomes.

REST 334

CAPSTONE: 1 course/ 4 credits

- IR 400 International Relations Capstone (4)

RELATED FIELD REQUIREMENT:

FOREIGN LANGUAGE

Pass at least one course at or above the 300-level in a non-English language

THE MINOR

Students who minor in International Relations complete four foundation courses as well as at least two courses in a single concentration. International Relations minors meet non-English language requirements equivalent to passing a class at the 200-level. The critical thinking and research skills developed in the International Relations minor complements any number of major programs, giving students the tools to understand the processes underlying global interactions and their consequences.

FOUNDATION AND INTERDISCIPLINARY CORE

4 courses/ 16 credits

- IR 201 Introduction to International and Global Studies (4)
- IR 200 International Relations Theory (4)

And two of three Interdisciplinary Core Courses:

- HIST 102 World History since 1450 (4)
- SOAN 102 Introduction to Cultural Anthropology (4)
- ECON 100 Economics & Society (4) OR ECON 101 Principles of Economics (4)

CONCENTRATION

2 courses/ 8 credits

Select one concentration area and complete two courses within that concentration; no more than one may have lower division designations. Courses in the concentration must be taken from at least two departments.

RELATED FIELD REQUIREMENT:

Foreign Language: Pass at least one course at or above the 200-level in a non-English language.

INTERNSHIPS, FIELD EXPERIENCES, AND/OR STUDY ABROAD

The program encourages all International Relations majors to practice their skills in an applied setting, when at all possible for at least one semester. This may take the form of study abroad where students gain cross-cultural experience living, working, and/or studying with residents and citizens of other countries. Similarly, internships and field experiences through May Term, summer research, or semester-long experiences are also encouraged.

SIGMA IOTA RHO

SIR is the nation-wide Honor Society for International Relations, International Studies, and Global Studies. "The purpose of Sigma Iota Rho shall be to promote and reward scholarship and service among students and practitioners of international studies, international affairs, and global studies and to foster integrity and creative performance in the conduct of world affairs." Our chapter serves as a co-curricular community for IR students.

DEPARTMENTAL HONORS

Only students with a GPA of 3.5 or higher in the major are eligible for departmental honors. Eligible students may earn honors through the successful completion of an original Honors Thesis which breaks meaningful new ground in its research topic. Exceptional students are encouraged to initiate an application with the program chair.

COURSES IN THE CONCENTRATIONS

Possible courses for each concentration within International Relations are listed; however, there will be other courses whose topics fall within the scope of the concentration. Students should discuss all concentration course choices in consultation with their advisor, as well as any topics courses not listed and relevant Study Abroad programs/courses.

COURSE DESCRIPTIONS (IR)

200 International Relations Theory.

Fall, (4), Spring (4).

Exploration of international relations theory, focusing on ideas and concepts that have been invoked to explain forces at work in interstate politics and the global system. Topics include political realist, liberal, constructivist, and feminist approaches to international relations theory, foreign policy, and national security decision making. Required of all International Relations majors.

201 Introduction to International and Global Studies.

Fall (4).

An interdisciplinary introduction to the contemporary world that focuses on the ideological, political, economic, and cultural dimensions of modernity. The class considers the principal actors, institutions, processes, and power relations that have shaped the challenges and opportunities associated with globalization and international relations. Required of all International Relations majors.

Numeric and Evaluation grade only.

350 Translation and Interpretation Workshop.

Spring (4).

Translation provides a bridge between diverse peoples in an increasingly globalized world, and allows people to access knowledge, services and resources that they desperately need. This course will unlock students' understanding of the structures, uses, and etymologies of foreign languages and English, and help them cross cultural, national, and ethnic boundaries.

Prerequisite: One 300-level foreign language course or permission of instructor.

Offered as needed.

400 International Relations Capstone.

Spring (4).

An interdisciplinary research seminar for International Relations majors in which students examine common issues in international relations from their various areas of expertise and then produce a major research project. Required of all majors.

Prerequisite: IR 200 or by permission.
