THE MAJOR

BACHELOR OF SCIENCE IN GLOBAL BUSINESS

The Global Business Department offers a Bachelor of Science (B.S.) in Global Business. Though one of the youngest departments on campus, we are among the University's most distinguished programs in terms of the career success of our graduates, support from alumni and donors, and recognition from on and off-campus entities e.g. the J.W. Fulbright awards.

Global Business graduates have been hired by a litany of major publicly traded firms, been accepted to many of the world's most prestigious graduate schools, and launched successful careers as business executives, entrepreneurs, public servants or professionals in non-governmental, not-for-profit organizations. They have done these things both within the United States and abroad. Almost half of the University of Redlands' 21 recipients of the United States government's J.W. Fulbright Award have been Global Business majors.

If you choose to major in Global Business, we want you to travel, master at least one language besides English (not just perfunctorily study another language for a few semesters, but really become proficient with it), and deeply study the history and current conditions of a country or region other than the United States. We also pride ourselves on being a rigorous program that attracts many talented, hardworking students.

Thus, among the key distinctive features of the Global Business program are that we do not merely suggest but actually require that our majors: 1) study abroad for at least a semester, 2) complete at least three years (six semester) of university-level study of a foreign language (or demonstrate equivalent competence), and 3) take courses focused on places outside of the United States. We also have GPA requirements for entry into the program and degree completion that are higher than University norms. Students are strongly encouraged to take Calculus I.

Global Business is presented as a process of understanding how cultures and political systems manage their economies, and the rules and procedures that nations create to permit and encourage businesses to operate within their borders. To understand foreign business situations, an emphasis is placed on developing knowledge of and sensitivity to the language, cultural, and political climates of host countries.

The major in Global Business prepares students for a career in international business, public, and not-for-profit service, as well as graduate study in a number of disciplines including law, finance, business, and government.

Global Business Department classes (GLB) may be taken towards the major based upon prerequisites or with the permission of the instructor. All classes, prerequisites, core courses, and advanced electives, must have an overall cumulative GPA of 3.0 or higher to fulfill the requirements for the Global Business degree.

In order to enroll in Global Business 228, students must have a cumulative GPA of 3.0 or higher at the time of registration or the permission of the department chair, including first semester students. Transfer students must have a cumulative GPA of at least 3.0 from their previous school(s) at the time of registration. In addition, any student seeking to declare a major in Global Business must have a cumulative GPA of at least 3.0 at the time they submit their Declaration of Major. (Those students interested in the Accounting, Business Administration, or Management majors should refer to the specific Accounting Department's section or Business Administration and Management Department's section of this Catalog.)

Students who do not meet the GPA requirements as noted above may petition the Global Business Department for permission to enroll in Global Business 228 or to declare the major. Petitions will be reviewed by the Global Business Department Chair, and will be granted only in exceptionally compelling circumstances.

Students are encouraged to develop a geographic area of emphasis or concentration through interdisciplinary study. Linked to the academic study of issues and practices are the requirements that students become proficient in a second language and that they study abroad for at least one full semester. Approval from the Global Business Department Chair is required for all interdisciplinary and overseas- study aspects of the degree.

Learning outcomes for the BS may be found at www.redlands.edu/bs-glbs/learning-outcomes/.

INTERNSHIPS

Internships allow students to explore career possibilities and integrate classroom learning with practical experience. Students should contact their faculty advisors for more information. To receive academic credit for any business internship, students must complete an organizational and industry audit as defined by the professor advising this activity or an equivalent activity within their overseas study programs.

STUDY ABROAD

Study abroad greatly enhances the undergraduate experience for all Global Business students. The department requires one semester, minimum, of study abroad as well as advance planning for doing so. Early consultation with your Global Business advisor will allow for meaningful integration of one's international and university studies.

TRAVEL ABROAD

The faculty regularly offers May Term travel courses to Asia and Europe. These courses expose students to both cultural and business issues through interaction with government officials, industry leaders, and scholars. Cultural and industrial site visits are extensive.
