## CULMINATING EXPERIENCES AND GRADUATION REQUIREMENTS

---

Upon completion of the program, students may apply for a Certificate of Eligibility. Credential candidates must have worked full time under the authority of a teaching or service credential for five years, in addition to completing the program's coursework and fieldwork, as a prerequisite for the Certificate of Eligibility. This certificate never expires and enables the holder to apply for administrative positions.

Once employment is gained, holders of the Certificate of Eligibility may then apply for the Preliminary Administrative Services Credential.

### Application for Graduation

Students who have completed all program and state requirements should contact their advisor to request a credential recommendation.

### Commencement

School of Education students complete program requirements at various points throughout the year. Students may apply to commence in the academic year in which they complete their program requirements as long as they do so by August 31. An application must include a reasonable plan for completing the remaining credits by August 31 and should be submitted to the student's advisor by January 31.
